

## Dr. Hayder Adnan Al-Bahadily

---

Hayder A. Al-Bahadily graduated from Baghdad University with a B.Sc. degree in geology in 1994, with M.Sc. and Ph.D. in 1997 and 2022 in geophysics seismic reflection and potential fields, respectively. Hayder started his career as a field geophysicist with the Iraq Geological Survey in 1999. He conducted several field surveys, including gravity, magnetic, electric, and radiometric. Hayder published several research focused on mineral and oil explorations, as well as archaeological and groundwater studies. Currently, he is interested in gravity and magnetic data processing and interpretation.
