

Mrs. Sahira A. Mohammed

She graduated in 1962 as a top ten student from the University of Baghdad (B.Sc. in Geology). She got an M.Sc. in micropaleontology for the Lower Miocene in N. Western Iraq from Canada, Queens University. She worked as a geologist in the Department of Geology, at Baghdad University, then spent most of her working years in the Iraq Geological Survey as a chief geologist. She was the head of the paleontology Department, for many years, responsible for the study of the project samples, writing the scientific reports, and training new graduates, She wrote many scientific reports retested in the office library. She has 17 published papers and she is the co-author of two final geological reports part stratigraphy and paleogeography of Iraq. Now, she is retired but still advises the geologists who need scientific help, evaluates papers, and joins in some scientific conferences and workshops of the geological unions.
